NEW LOGGING ROAD

RAILWAY TO BE BUILT UP GRAND RONDE RIVER.

Immense Body of Yellow Pine Timber to Be Tapped on Blue Mountains—Logs Have Been Driven Down the River to Perry, But That Method is Impracticable Now, Owing to the Great Distance.

La Grande, Oct. 17.—Surveys are complete for a narrow gauge logging railroad from Hignard up the Grand Ronde river, about 30 miles, to a heavy body of timber owned by the Grand Ronde Lumber Company of Perry, on the slopes of the Blue mountains.

This company has driven its logs down the river for the past 12 years, but it is now becoming almost impossible to get a sufficient amount of logs by this method for the season's run, and the company has determined to build a road to the timber.

There are several hundred thousand acres of excellent yellow pine on the mountains, which will keep the mills running for many years and as the grade could be built along the river canyon, at a small expense, comparatively, the company will undertake that task in the near future, perhaps next spring.

The mills employ about 200 men during the busy season, and the company of Mormon people who recently purchased it, are practical and progressive mill men and will enlarge their trade as rapidly as possible.

MAXWELL ON IRRIGATION.

Says Every Striker of the Past Year Could Have Lived Like a King on One Acre.

George H. Maxwell, executive chairman of the National Irrigation Association, was the speaker at a meeting held in the rooms of the Helena Business Men's Association last evening, and while the attendance was small—woefully small when the importance of the subject discussed is considered—the address was full of interest as a clear presentation of the question, to the furtherance of which Mr. Maxwell has for several years devoted much of his time, says the Helena Independent.

The One-Acre Farmer.

Mr. Maxwell spoke of the conditions in Chicago during the packing strike, when women and children stood in line for hours to get a few potatoes with which to sustain life.

He referred to the Yellowstone county exhibit at the state fair, and declared that there was not one of the men involved in the great strike who could not come to Montana and, by the cultivation of only one acre of land, live better year in and year out than he could on any wages received at the stockyards.

"There is," Mr. Maxwell said, "a valley of 100,000 acres near Helena on which the government can put water—and will. Divide that area into five-acre farms, and put a family on each farm, and figure out what that would mean to Helena."

"Within five years from the date of the establishment of a practical system of industrial education, one million people could be brought into Montana."

"The man who knows how to cultivate a five-acre farm in Montana, scientifically, will make more money the year round than the man who raises hay and grain and stock on a farm of 160 acres. And the settlers who come into this new land will have God's fresh air to breathe and good homes to live in, and the horrible social conditions that exist in the cities will disappear."

WOMEN STREET FAKERS.

Two Portland Women Hold Religious Services and Spend Collections in Saloon Boxes.

Preaching the gospel on the street one minute, taking a collection the next and then going to a room of the American cafe to divide the money with her partner is what the police say Grace Foyle has been doing for several weeks, says the Oregon Daily Journal.

Last night she, in company with three other women, were arrested on warrants issued out of the municipal court. They were charged with offenses, found guilty and fined \$20 each by Judge Hogue this morning.

The Foyle woman denied that she had been preaching on the streets and taking collections, ostensibly for the spreading of the gospel, but Policeman White and other witnesses swore she had.

They say she and another woman would hold street meetings, sing and preach and take a collection. They would then go to the notorious saloon named and boast of their trickery and divide the money they received.

Improvements at Hospital.

There has just been completed at the hospital a shelter house designed to accommodate three or four rigs driven by the various house surgeons who call at the institution. A coal house for the hospital has also been completed by Yates & Elstrom, which is 16x48 feet and will hold five carloads of coal.

Nelson Will Build Large Barn.

Dave Nelson is preparing to build a large barn on his farm not far from town. It will be 52x64 feet on the ground and two stories in height. It will hold 200 tons of hay and 24 horses, and be a frame structure with a concrete foundation. Completed, it will cost about \$2000.

The clinging vine sort of woman sometimes sends out tendrils that twine about and anchor a man till he is helpless as the rooted oak.

Messrs. Ely Bros.:—I have been a great sufferer from catarrh and hay fever and tried many things, but found no permanent relief until I found it in Ely's Cream Balm, about eight years ago, and we have been fast friends ever since. (Rev.) R. M. Bentley.

Messrs. Ely Bros.:—Find enclosed 50 cents, for which please send me your Cream Balm. I find your remedy the quickest and most permanent cure for cold in the head, catarrh, etc. Yours truly, Dell M. Potter, Gen. Mgr. Arizona Gold Mining Co.

There are people who insist that you give them credit for good intentions and feel injured if you venture to expect them to make good.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
